How it works / Active ingredients

Hyaluronic Anti-Ageing cream is an advanced formula that will relax the skin, smooth lines and wrinkles and make the face look firmer and skin will feel more elastic. Hyaluronic Acid has amazing skin care benefits. It is strengthening, moisturizing and anti-ageing. It lubricates the skin cells to make them elastic, boosts collagen and elastin and helps to create a protective barrier against microorganisms. Repeated use will maintain moisture levels in the skin, preventing skin dehydration. Vitamin E and B5 that supports healing and protection and green tea extracts that feeds antioxidants, your skin looks and feels replenished, healthy and beautiful.
