 - Up to 75% reduction of mild to moderate acne within 6 weeks
- Strengthens skin long term and limits future break outs
- Complete two step system
- Perfect for sensitive skin - free from salicylic acid
- Safe and without side effects

Product description:

Beconfident® Clear Skin Start Kit is a complete system with everything you need to reduce symptoms of unclear skin with two simple steps.

Active ingredients / How it works

The Beconfident Clear Skin System attacks the pimples and breakouts in two ways. First through the reduction of the common acne bacteria *Propionibacterium acne* and *Staphylococcus aureus*.

Secondly by building the strength and elasticity of the skin, which helps to prevent but also relieve symptoms of any future active breakouts. Unlike most methods on the market that contain salicylic acid, Beconfident products act with ingredients that will not dry out the skin or give other uncomfortable side effects.

Both Prepare and Reduce contain substances extracted from Bovine Colostrum - Natural raw milk. Prepare includes Lacto peroxidase which is an enzyme with very strong antibacterial properties. This enzyme effectively reduces the bacteria. These bacteria are normally found on the skin but effectively reducing them will minimize the symptoms of breakouts.

Reduce contains large amounts of IgG (immunoglobulin G) which is also extracted from colostrum and will together with conjugated vitamin A improve skin quality. IgG has an anti-bacterial effect and helps to balance the skin's bacterial flora. Collagen helps to build the skin's thickness and elasticity, but when the degradation of collagen is greater than the production the skin will become thinner and more sensitive. Conjugated Vitamin A in Reduce has a very good ability to penetrate the skin cells and also promote the growth of collagen but also reduce its degradation. The improved quality of the skin effectively contributes to the long-term resilience to new breakout attacks.

Beconfident- Top Quality Teeth whitening and Skincare systems are designed in Sweden & Made in USA and Sweden. Beconfident® + WhiteAmin® + SimpleSmile® are registered trademarks in Europe and Beconfident® is a registered trademark in United States of America. IOS and Android Intelligent Apps belong to Beconfident Skincare AB. Other brands are pending.

In an active phase Prepare + Reduce work in parallel to relieve symptoms in the short term and strengthen the skin's own resistance in the long term. When the active phase subsides and there are clear signs of improvement, usually after 3 weeks, we recommend continued use of only Reduce. At the next active phase combine again the two formulations as directed. It is important to complete the full course of treatment for minimum 3 weeks for best long-term results. This Kit is calculated to last for up to 6 weeks but it depends on usage.

Unique Competitive Advantages

- Easy two-step system
- Zero Salicylic Acid which means no skin dryness or redness
- Added Vitamin A strengthens skin
- IgG gives prolonged action and protection against future spots
- Beconfident[®] Acne App support

Ingredients:

Prepare:

Aqua, Sodium Lauroyl Sarcosinate, Glycerin, Polysorbate 20, Hydroxyethylcellulose, Pentylene Glycol, Parfum, Potassium Sorbate, Sodium Benzoate, Potassium Thiocyanate, Lactoferrin, Citric Acid, Lactoperoxidase, Disodium Phosphate, Glucose Pentaacetate, Glucose Oxidase, Potassium Phosphate

Reduce:

Aqua, Decyl oleate, Gluconolactone, Polysorbate 20, Cyclodextrin, Cetyl Alcohol, Glyceryl Stearate, Carbomer, PEG-75 Stearate, Sodium Benzoate, Steareth-20, Glycerin, Retinyl palmitate, Ceteth-20, Parfum, Palmitoyl tetrapeptide-7, Sodium hydroxide, calcium gluconate.

The Clear Skin Start Kit contains the following items:

- 1) 30 ml Prepare gel, Airless
- 2) 30 ml Reduce cream, Airless
- 3) 4 ml Spot on Pen
- 4) Instruction sheet, Multilanguage

Beconfident is not conducting any testing on animals.
