

Clear Skin Reduce

Art no: 1803xx 30ml

190397 for 20ml

Reduces break-outs and strengthens your skin
for long-term control

Claims:

- Strengthen skin long-term and limits future breakouts
- Maintain optimal skin conditions after using Clear Skin Start Kit for long-term control of moderate pimples
- Perfect for sensitive skin - free from salicylic acid
- 2 different packaging types – Small type for easy carry along.

Product description:

The Beconfident Clear Skin Reduce works by building the strength and elasticity of the skin, which helps to prevent but also relieve symptoms of any future active breakouts and pimples. Unlike most methods on the market that contain products act with ingredients that will not dry out the skin or give other uncomfortable side effects.

salicylic acid, Beconfident's

Clear Skin Reduce contain substances extracted from Bovine Colostrum - Natural raw milk. Prepare includes lactoperoxidase which is an enzyme with very strong antibacterial properties. This enzyme effectively reduces the acne bacteria. These bacteria are normally found on the skin but effectively reducing them will minimize the symptoms of pimples. Both a printed manual and a mobile application can support with personal guidance, as each treatment is individual.

Working mechanism in short:

Clear Skin Reduce contains large amounts of IgG (immunoglobulin G) which is also extracted from colostrum and will together with conjugated vitamin A improve skin quality. IgG has an anti-bacterial effect and helps to balance the skin's bacterial flora.

Collagen helps to build the skin's thickness and elasticity, but when the degradation of collagen is greater than the production the skin will become thinner and more sensitive. Conjugated Vitamin A in Clear Skin Reduce has a very good ability to penetrate the skin cells and also promote the growth of collagen but also reduce its
